WHEELING, W. VA., MONDAY MORNING, DECEMBER 3, 1888.

VOLUME XXXVII--NUMBER 87.

Trial of Mrs Snoots for Murdering Two of Her Children

TO BEGIN AT CAMBRIDGE, OHIO,

To-day-The Story of the Alleged Crime-The Mysterious Deaths of

to the gallows, although largely circumstantial, is yet so damaging that already she must feel the halter draw.

Mrs. Snoots is 36 years old, of slender figure and medium height, the common country type that is neither brunette nor blonde, and still she is rather prepossessing than otherwise, But she does not look the extraordinary criminal which she is alleged to be. Of fair intelligence and ordinary education, there is nothing singular or remarkable about her character or her history, aside from the grave charges preferred against her by the State. She was born and reared in Muskingum county and was married thirteen years ago to Harvey Snoots, of Adamsville, a quiet and inollensive farmer, who firmly believes in his wife's innocence. She has been the mother of five children, four of whomlare dead. The ionly one living is a babe in arms, norn last August, after its mother's arrest formurder. The last child to die was little Carrie, aged perhaps six, who died July 6, 1887, after a few days of severe illness. It was given out that she had died of inflammation of the stomach and bowels, but something about the symptoms of her illness aroused the suspicions of the attending physicians, and a few weeks later, the remains were exhumed, the stomach taken out and sent away for analysis. The analysis revealed the presence of Paris Green in the stomach in guch quantities as to leave

of what produced death. With the knowledge of this fact, the State set to work to discover the poisoner and a clear train of circumstances was developed which pointed to the mother her old a bull of the mother her old a ingly indicted by the Muskingum county grand jury at the November term in 1887 for murder in the first degree. grand jury at the November term in 1887 for murder in the first degree. Upon her arrest and arraignment she displayed no marked emotion, but instead an unexpected stolidity. She was admitted to bail by Judge Phillips in the sum of \$10,000. The case was twice set for trial in the Muskingum Common Pleas, but was continued the first time because of the defendant's pregnancy, and the second time a change of venue to Guernsey county was granted by the court on the motion of the defense. The counsel for the defense recited in support of this motion the extreme prejudice entertained against the accused by most of the Zamesville and Muskingum county people by reason of highly colored newspaper reports and the consequent difficulty that there would be in securing a fair trial. Nearly all of this difficulty is obviated by the transfer of the case, and what prejudice there is will not operate to the advantage of the prosecution. The defense scores

A CONSIDERIABLE ADVANTAGE by the change of venue. It will take the hardest kind of work to make a Guernsey county jury convict a woman of a crime for which she would have to hang. Judge J. W. Campbell will preside during the trial, and a special venitor of the fact that its people are not disposition to help the unfortunate is as the accused by the trial and a special venitor of the fact that its people are not disposition to help the unfortunate is as the president Meach and the president

the hardest kind of work to make a Guernsey county jury convict a woman of a crime for which she would have to hang. Judge J. W. Campbell will preside during the trial, and a special venire of thirty-six names has been drawn from which the jury will be chosen.

If the State fails to secure a conviction on this indictment there is yet another indictment for another act of marder on which Mrs. Snoots will be brought to trial. Same time last summer the defense uncerthed suspicious circumstances at-

trial. Some time last summer the defense uncarthed suspicious circumstances attending the death of others of the children of Mrs. Snoots, and the remains of Blanche who died October 17, 1883, in a way very similar to Carrie's death, were disinterred and the contents of the stomach analyzed. A mineral poison was found in the stomach sufficient to cause death, and the grand jury at the October term returned a second bill of indictment against Mrs. Snoots, charging, her with the wilful murder of a reviewd home, bearing a message from

the Children and the Evidence that Led to the Arrest.

Special Dispatch to the Intelligence.

CAMBRIDGE, O., Dec. 2.—Mrs. Anna Snoots will be put on trial here to-morrow for her life. She stands charged with the premeditated murder of two of her own children, and the evidence which the State relies upon to bring her to the gallows, although largely circum-

convention was and is a devoted per ex-Senator Johnson N. Camden to represent this State on the National Demo-cratic Committee. Their control of the Campaign was absolute. Mr. Camden contributed \$5,000 to the Democratic campaign find upon the express condition that he be allowed to expend it to suit himself, which was granted. When the National Committee two weeks before the election sent \$10,000 into the State, Mr. Camden was the consignee, and the money was distributed according to the pleasure of himself and Mr. Kenna. From beginning to end, the campaign was conducted exclusively by Mr. Kenna and his chosen friends. If 5 funds were misapplied, or the party management incompetent, or the organization inefficient, all of which is confessedly true, there can be no mistake as to where the responsibility belongs.

the fiscal year ended June 30; 1885, with many striking comparisons with previous years, showing a remarkable expansion of business and a large increase in expenditure.

The following are some of the leading statements and recommendations of the text of the report:

The gross revenue for the year was \$52,605,176. The total expenditures were \$55,886,403. The estimated deficiency therefore is \$4,190,277.

Amount of ordinary postal revenue for the fiscal year ended June 30, 1889, \$51,507,177, gives the estimated amount of ordinary postal revenue for the fiscal year ended June 30, 1889, \$56,567,515.

Amount of crossinated are entered to both houses of Congress to-morrow, are reded June 30, 1889, \$57,392,576.

The amount appropriated for service of this year is \$60,800,233, or an excess, over the amount of revenue estimated above of \$54,467,657, which will be drawn for the general Treasury should the total amount appropriated be needed.

The total number of postoffices is 57, 1326, an increase over 1885 of 6,124.

The number of postoffices is 57, 1326, an increase over 1885 of 6,124.

The number of postoffices is 57, 1326, an increase over 1885 of 6,124.

The number of postoffices were upon to feed and to learn that Judge Rucker and Senator Black-urn has not been settled, as one might when an expanding the incumbents. The adjustment of July 1, 1888, established 197 offices in the first class, 497 in the second class, and 1,908 in the third class, and laptic for the control of the second class, and 1,908 in the third class, and laptic for the Research and the data named of 2,052. There has been an increase of \$22,500 in the second class, and 1,908 in the third class, and laptic for the second class, and 1,908 in the third class, and laptic for the second class, and 1,908 in the third class, and laptic for the second class, and 1,908 in the third class, and laptic for the second class, and 1,908 in the third class, and laptic for the second class, and 1,908 in the third class, and laptic for the second class, and 1,90

comprehensive clearing house for the purpose of maintaining rates and preventing ruinous and reckless competition help him out.

Mr. Haley came to this city yesterday venting ruinous and reckless competition has practically failed. The Chicago & Northwestern Company has added its opposition to that of the Rock Island, and, singularly enough, its stock broke in the market as soon as it made known its objection, just as Rock Island stock broke when President Cable began to criticise the plan. As there are other roads to hear from, and they are likely to follow in the wake of the two great corporations mentioned, the chances of putting the scheme through are very slight.

the movement, and do not indorse the assertions of General Koonts in saying that politics has been introduced in the order. Major Irwin Robins, one of the ex-commanders of the Geo. H. Thomas Fost, who was probably more prominent in organizing Democratic soldiers during the campaign than any other man in the party, is not a member of the association formed by Adjutant General Koontz, having declined to join it. There are many other Democratic exsoldiers of prominence who do not be long to the organization, among them Governor Gray, Col. Zollinger, Major Mitchell and others.

Major Mitchell, who is a prominent Democrat and Prosecuting Attorney for this (Marion) county, speaking of the matter this evening, said: "As a member of the G. A. R. I can say that during all the time I have betonged to George H. Thomas Posts politics never at any time, in any shape, manner, or form, entered into the work of the Post any more than politics may be introduced into church organizations. It cannot be made any more of a political organization than the order of Masons, Odd Fellows or Knights of Pythias."

Col. I. N. Walker, Assistant Adjutant General of the G. A. R. Department of Indiana, says: "The whole business has been engineered by half a dozen chronics, and at no meeting have they been able to secure the attendance of fifty persons, and not to exceed half of these have ever been members of the G. A. R. No Democrat of standing or influence in this community, who is a member of the G. A. R. as a member of the G. A. R. or the properties of the contrary, scores of comrades of the contrary, scores of comrades of the political faith have personally and by letter denounced the attempt of these small fry politicians."

A New and Cheaper Process for the Manu

SPRINGFIELD, O., Dec. 2.—Hon. John Bookwalter, of this city, has been engaged in perfecting and introducing a new process for the manufacture of steel. Steel of all grades and even wrought iron of the highest purity and quality can be produced from the pig iron in eight and one half minutes and at a cost less than by any process hitherto known. One great feature of the process is that it can be run with sarving less. great reature of the process is that it can be run with certainty into castings of all forms and sizes, producing castings true to the pattern, remarkably sound and free from bubbles, and possessed of extremely high tensile strength and ductility.

DAGGETT, CAL., Dec. 2,-The Atlantic cers sought to arrest them they resisted by firing upon them. Three hundred armed men visited the place, and a young white man, who was suspected of having incited the negroes, had to flee the county to escape the vengeance of the mob.

The two negroes were thrown into the river with rocks tied to them. No effort has been made to recover their bodies. The negroes are aroused, and have armed themselves. The whites have appealed to Governor Gordon for protection.

Disease—A Serious Situation.

London, Dec. 2.—There is a very good eason to believe that the indisposition of the German Emperor, which was pubin reality, a manifestation of the hereditary disease which for many years has New York, Dec. 2.—Harry J. Stokuni, and which be used daily when occupying a Brooklyn crayon artist, is defendant in a suit for breach of promise brought against him by Miss Agnes Dunning, of the relationship of the relationsh Unter Den Linden. The fact that it has been officially announced that the ear trouble has nothing to do with the Emperor's illness is calculated to make one believe all the more firmly that it has. The Emperor will not go out for some time yet, and no ordinary cold, it is certain, could keep a man of his energy very long confined. It is very possible, as has been suggested, in referring to this trouble of the Emperor's, that all the speculations as to the fate of the German empire while in his hands may be settled by his premature disappearance from the throne. The statement is already going about that the Emperor's latest body has inherited his father's discusse. It is very feeble and is declared to case. It is very feelle and is declared to be suffering from a malformation of the left arm, similar to that of the Emperor. The latest title acquired by his German Majesty is that of President of the Union German Carrier Pigeon Societies, which he has just accepted. A list of all those belonging to him would furnish some amusing reading.

Houlanger Makes a Speech Panis, Dec. 2 .- Gen. Boulanger, in a tion now was just as disgraceful as it was Iton now was just as disgraceful as it was in 1851. They must, however, go back to 1789 to find a parallel. The same necessities existed at home, and there was the same need of organizing for national defense. He repeated his former arguments in favor of a revision of the constitution, etc.

Mr. Bright Much Worse

LONDON, Dec. 2 .- Mr. Bright has again come worse, and his condition is now critical. He was restless and rather feverish during the day. This evening his lungs are worse than this morning, though they are in better condition than they were yesterday.

place in Streets City, between two fac-tions of Chinese high-binders. Trouble place in Streets City, between two lions of Chinese high-binders. Trouble between the two crowds had been brewing some time. Thursday a street fisting some time. Thursday a street fisting to ccurred between several of the fiscal year ending June 30, 1890, aggrehigh-binders, and this afternoon a sandigh-binders, and this afternoon a sandigh-binders, and this afternoon a sandigh-binders, and this afternoon as an one of the sandigh several to the fiscal year ending June 30, 1890, aggregate \$44,632,507.

The Secretary renews his former and the sandigh several properties of the sandight several properties of the sandigh several properties of the san ch-binders, and this attended in the inary meeting took place on the inary meeting took place on the recommendations regarding coast decense, about twenty Chinamen, all recommendations regarding coast defenses, and asks for \$2,840,000 for armed with pistols, participated. Over fifty shots were exchanged and the row lasted some to windows. lasted some ten minutes. Four high-binders were shot down and two others were badly wounded. Four were re-moved, receiving hospital attention, where one died very soon after.

DEPARTMENT REPORTS

Showing the Workings of the Postal Service.

THE DEFICIENCY THIS YEAR

Less than Last-Report of the Secre tary of the Interior-A Good Showing-The Condition of the Department of War

WASHINGTON, Dec. 2.-The Postmas ter General's report presents concisely the condition and history of every division and branch of the postal service for the fiscal year ended June 30, 1888, with many striking comparisons with pre-

been an increase of \$222,500 in the amount required for the salaries of Presidential postmasters over the amount required for 1887.

In the railway mail service an increase of about 12,000 miles is shown. There is an increase of 1,707,790 in the number of miles traveled per annum and a decrease of 72 per cent in the rate of cost per mile traveled and an increase of 3,32 per cent in the average number of trips per week. The total volume of business in the money order-division for the year is upwards of \$143,000,000 and shows a net profit to the government of about \$5,000. The volume of ordinary mail matter has largely increased, and it is estimated that the revenue on the number of pieces handled during the past year would have been, without reductions of postage, upwards of \$70,000,000. The free de ivery ser vice was, during the last fiscal year, extended to 169 additional places under the act of January, 1887; making atotal of 358 free delivery cities. The number of carriers was increased from 5,310 to 5,346.

During the year 791 persons, officials, employed of the department and others.

creased from 5,310 to 5,346.

During the year 791 persons, officials, employe of the department and others, were arrested for various offensee against the postal laws and regulations.

Forty-nine burglars and twenty-three other offenders were arrested, where cases were subject to the jurisdiction of the State courts.

other offenders were arrested, where cases were subject to the jurisdiction of the State courts.

The report says it is gratifying to note that there has been a marked improvement over the past year in the number of complaints of depredations upon the domestic registered mail, and that the percentage of loss is also small. The number of complaints received is smaller and the percentage of oscertained loss much less. Only 4,820 complaints were received as against 5,286 made last year.

The Postmaster General says, at the request of his predecessor, an additional appropriation of \$100,000 was made for the inspection service. This was done in order that the smaller postoffliers, those of the fourth class, might be examined and the Postmasters instructed by a personal visit of an inspector. This had not previously been done systematically. During the past year 24,889 such offices were carefully inspected.

Tables of the tests of the efficiency of grailway postoffice clerks under the standard adopted prior to 1885 are submitted therefore.

The final entries made during the year upon the situation. It is signed by many of the leading chiefs and priests of the Aleuts, and declares in unequivocal decres. The original entries number terms that the natives have been renumber 70,468, embracing 11,340,162.53

acres. The original entries number 172,479, embracing 10,982,670.01 acres. Railroad and State selections were filed covering 7,790,851.91. Thus, in addition to the final entries, specific claims have been newly asserted to 18,776,521.92 acres during the year.

The receipts from the disposal of public lands were \$12,701,072; from sale of Indian lands \$821,113.77; a total of \$13,700,000 and the properties of characteriess white lands were \$12,701,072; from sale of Indian lands \$821,113.77; a total of \$13,700,000 and charges which are sure to arouse the indication of all trac American etities.
